

FERMILAB SIST INTERNSHIP APPLICATION QUESTIONS

(This document is for preparation purposes only. Application must be completed and submitted online at: <http://academicjobsonline.org/ajo/jobs/12449>)

Q1. Name and Contact Information

TIP: Make sure you use a professional sounding email address, or use your school email address.

Q2. Work Experience – List jobs you have held. For each job, list the Employer, Position, Dates of Employment, and Description of the work. (2000 characters max)

Q3. Discuss some of your favorite courses, some classroom/lab experience that you enjoyed and the challenges you faced. (2000 characters max)

Q4. Briefly discuss what attracted you to your major and your career plans. Are you planning on attending graduate school? Going into industry, R&D, etc.? (2000 characters max)

Q5. Describe in detail a project or projects that you have worked on. Did you meet the project design goals? What were some of the challenges you faced and how did you overcome them? (2000 characters max)

Q6. Please provide any additional information that will help the committee evaluate your application more fully. (2000 characters max)

TIP: This is where you can convince the committee you are a good fit for the internship. Talk about any personal or academic experiences or challenges you've had that make you especially prepared for this opportunity.
